Subject: Requesting email hosting service for events.bt

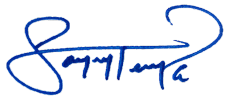

Dear sir/madam,

I am writing to avail the email hosting service with bhutan telecom for my new startup, events.bt. Events.bt is web app based portal for advertising and selling tickets for events happening across Bhutan. We will be launching the startup within October 2021.

We have already registered and have our domain, events.bt approved by your office. Please contact me at 17959565 or via email at events.bhutan@gmail.com should you require any clarifications.

Thank you.

Yours sincerely,

(Sangay Tempa)
